Re: Connect America Fund, WC Docket No. 10-90, Northland Cable Television, Inc. ("Northland") Challenge to Connect America Fund, Phase 1 Round 2 Funding

Dear Ms. Dortch:

In accordance with the Public Notice, DA 13-1832, released August 28, 2013, in the above captioned proceeding, Northland contests Windstream's request for Connect America Phase 1 Round 2 funding in the attached census blocks. Northland offers broadband service exceeding 3 Mbps/ 768 Kbps in each of the census blocks at issue. For those census blocks served by Northland with active broadband subscribers, attached are customer billing records, redacted to preserve customer privacy, establishing service within the census blocks. For all other areas, Northland provides below its certification that service is available.

With regard to Windstream's assertion that it has not ported a telephone number to a provider other than Windstream in the attached census blocks, as the Federal Communications Commission observed, "the absence of any porting activity from the incumbent to the other provider does not necessarily prove that the cable company or WISP is not providing broadband in the area."¹ Considering that the census blocks in question are so lightly populated, that "customers may drop their landline service entirely"² and Windstream's lack of additional evidence, Windstream's challenge to the National Broadband Map's classification of the attached census blocks must be rejected.

¹ *Connect America Fund*, WC Docket No. 10-90, Report and Order, 28 FCC Rec 7766, 7779 n. 68 (2013).

² *Id.*

Ms. Marlene H. Dortch, Secretary
September 26, 2013
Page Two

As an officer of Northland Cable Television, Inc., I hereby certify under penalty of perjury that Northland offers broadband service exceeding the 3 Mbps/768 Kbps speed threshold to subscribers within the attached census blocks.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Paul Milan", written over a faint circular stamp.

Paul Milan
Vice President and General Counsel
